ACADEMIC DETAILS

Year	Degree	Institute/Board
Aug 2021 - Present	BTECH in Computer Science	DIT University, Dehradun
2020 - 2021	Intermediate	CBSE
2018 - 2019	High School	ICSE

PROJECTS

• Hospital Management System

June'24-july'24

Patient Login: <https://hospital-management-system-frontend-vbmr.onrender.com/>

Admin Dashboard: <https://hospital-management-system-dashboard-e8na.onrender.com/>

- **Objective:** The objective of a Hospital Management System is to streamline and enhance hospital operations by efficiently managing patient information, staff, clinical records, reporting, communication, and compliance with healthcare regulations.
- MERN Stack is used to design the frontend and to handle middleware errors. Data (profile) of doctors and patients are stored in Cloudinary.

• Finance Tracker

Oct'24- Dec'24

<https://finance-tracker-deploy11.vercel.app/>

- **Objective:** Developed a Finance Tracker application to enable users to manage their finances effectively by tracking income, expenses, and transactions. The application provides features like CSV file uploads for bulk data handling, real-time data validation, interactive charts, and secure user authentication, focusing on a seamless user experience and performance optimization
- Tech Stack: Next.js, React (TypeScript), Tailwind CSS, Hono.js, Drizzle ORM, Neon Database, Clerk, React Query, Zustand, Zod, React Hook Form, Radix UI, Sonner,

• Flow Board: Kanban Project Management Tool

March 2024 – April 2024

- **Objective:** Developed a Kanban-style to-do list application using React with drag-and-drop functionality to enhance task management and workflow organization.
- Drag-and-Drop: Integrated React drag-and-drop libraries to enable smooth task movement between columns (e.g., "To Do," "In Progress," "Completed") for an intuitive, user-friendly experience.
- Real-Time Database: Utilized Firebase and Firestore for backend services, allowing real-time updates and seamless synchronization of task data across devices.
- Responsive UI: Built with a responsive layout for accessibility on both desktop and mobile devices.

TECHNICAL SKILLS

• Programming Languages:

- Java
- MySQL
- MongoDB

• Web Development:

- HTML - CSS
- JavaScript
- ReactJS
- NodeJS
- ExpressJS

- **DevOps:**
 - Docker
 - Git
 - GitHub
- **Coursework:**
 - Operating Systems
 - Database Management Systems
 - Data Structures & Algorithms

CERTIFICATIONS

- React Native - Meta
- Introduction to Containers w/ Docker, Kubernetes OpenShift- IBM
- Introduction to Microsoft Azure Cloud Services -Microsoft
- Introduction to Software Engineering
- Cloud Computing Basics
- Introduction to Containers w/ Docker, Kubernetes & OpenShift
- Oracle Cloud Infrastructure 2024 Certified AI Foundations Associate – Oracle University
